EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

2. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 8-20¹ have been renumbered 20-32.

As mentioned above, when new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not). Any claims mentioned in the rest of the current action refers to the claims as they have been renumbered.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record do not anticipate nor do they reasonably suggest the method of cutting a strip of elastomeric material as claimed in claims 1, 6, 23, and 24. The closest prior art, Bell et al (US 5,265,508), teaches an ultrasonic cutting system and method comprising many of the claimed steps except for the step of positioning the

cutting edge of the cutting device at a gap distance (d) above the anvil slightly less than or equal to the thickness of the cord reinforced component. As shown in Fig. 3 and discussed in c. 8, ll. 26-36, the cutting device (e.g. 46) extends all the way into a pocket of the blade rest (69) which means that there is no gap distance as claimed. This applies to all the independent claims 1, 6, 23, and 24. Moreover, none of the other prior art of record fairly teach or suggest this positioning step. Thus, it is believed that the claimed inventions with the lacking step in combination with all the other recited steps are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles Goodman whose telephone number is (703) 308-0501. The examiner can normally be reached on Monday-Thursday between 7:30 AM to 6:00 PM EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan Shoap, can be reached on (703) 308-1082.

¹ The mentioned claims 8-20 are referring to the "new" claims presented in the amendment filed on 8/2/2004. Note that in a preliminary amendment filed on 8/28/03, Applicant had cancelled original
